H. E Robert Piper

Secretary-General's Special Adviser on Solutions to Internal Displacement

Cairo, October 31st, 2023

Mr. Robert Piper

On behalf of the Arab organization for Human Rights (AOHR) and its Branches and Affiliated Organizations serving in 27 Arab and European Countries, I'm writing to your attention as special advisor mandated to reduce tomorrow's displacement crises as well as ending the curse of internal displacement. We are watching a genocide unfolding on daily bases since October 7, in the Gaza Strip, more people are being forced to flee within the tiny most populated area on earth. While we are welcoming the Secretary General statements and actions, and condemning the smearing campaign led by a member state in the UN.

Israeli Forces ordered and compelled over 1.2 million citizens of the north Gaza to move toward the southern part of the strip promising them with safe shelters which proved as false.

Dear Mr. Robert,

The internally displaced persons inside Gaza are suffering severe living conditions with below minimum level of food, water, sanitation, and medicine. Starvation is a war tool used by the Israeli Forces against the entire population of the Gaza Strip. Thousands of displaced persons mostly children and women have been bombed and killed in places where they have taken refuge and are either United Nations facilities or civilian objects should be protected under international humanitarian law.

It is time for all free voices to stand up against this prolonged injustice, and to stand up for the noble and lofty goals of the United Nations, calling for the protection of civilians against the new Holocaust. Are we waiting for an influx of refugees from Gaza to the neighboring countries to take place leading to the destabilization of the entire region, producing new humanitarian crises?

As the second UN secretary "the UN was not created in order to bring us to heaven, but in order to save us from hell" internally displaced persons in Gaza needs your voice, moral to stop the settling hell. Palestinians' life does not worthless, and matters stand up for their protection, act within the core values on the UN.

Best regards

Sincerely
Alaa Shalaby

President - AOHR
